TOUCHING YOUR LIFE EVERYDAY

SF638MK

RECHARGEABLE
MOSQUITO BAT
WITH FLASH LIGHT

5V USB Charging

Lithium-ion Battery

Over-charge & Over-discharge Protection

ULTRA LIGHTWEIGHT BUG ZAPPER

- 3.7V, 500mAh Lithium-ion Battery
- 3000V Grid Voltage
- Over-charge & Over-discharge Protection
- Overcurrent, Load Short Circuit Protection
- 5V USB Charging
- 10 Hours Charging Time.

Features

- The product is powered by a 14500 lithium-ion battery with a capacity of 500mAh
- The product is equipped with a selected wavelength is 360-400nm
- The grid voltage is about 3000V when working
- The product has overcharge, over-discharge, overcurrent, and load short circuit protection, etc., to accurately detect the charging voltage to ensure the safety of charging
